

Quick Poster

Patent pending

- **Easy artwork switching**
- **Double sided**
- **Compact packaging**
- **Adjustable height**

Quick Brochure is an available accessory for A4/A5 sized leaflets.

Unique feature for height adjustment.

All in one – easy to install!

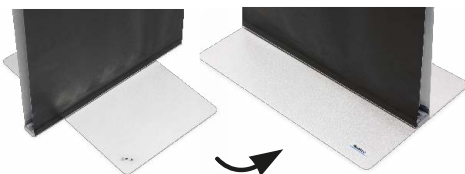

Quick Poster is securely transported in a compact case. The perfect, cost effective and exclusive advertising system for in-store campaigns, fairs and events.

Simple and smart display system

Quick Poster is a unique, patent pending system filled with smart and innovative features. Set up is done with ease and is always precise, thanks to the self-adjustable supporting pole. Artwork can be switched both instantly and repeatedly and the display system's base is also adjustable for increased stability.

The system's top profile gives you the option to attach signage on top, making the system even more visual and expressive. The system's height is 160 cm but can be extended to 180 cm with an extra pole.

The adjustable base increases stability when required.

Signage can easily be attached to the top.
